Suppliers

Visiting SLH Depot

You are attending the depot to collect materials that you have already ordered or to use the welfare.

SLH is managing the number of staff that gather at the depot, please do not use it as an opportunity to socialise with colleagues.

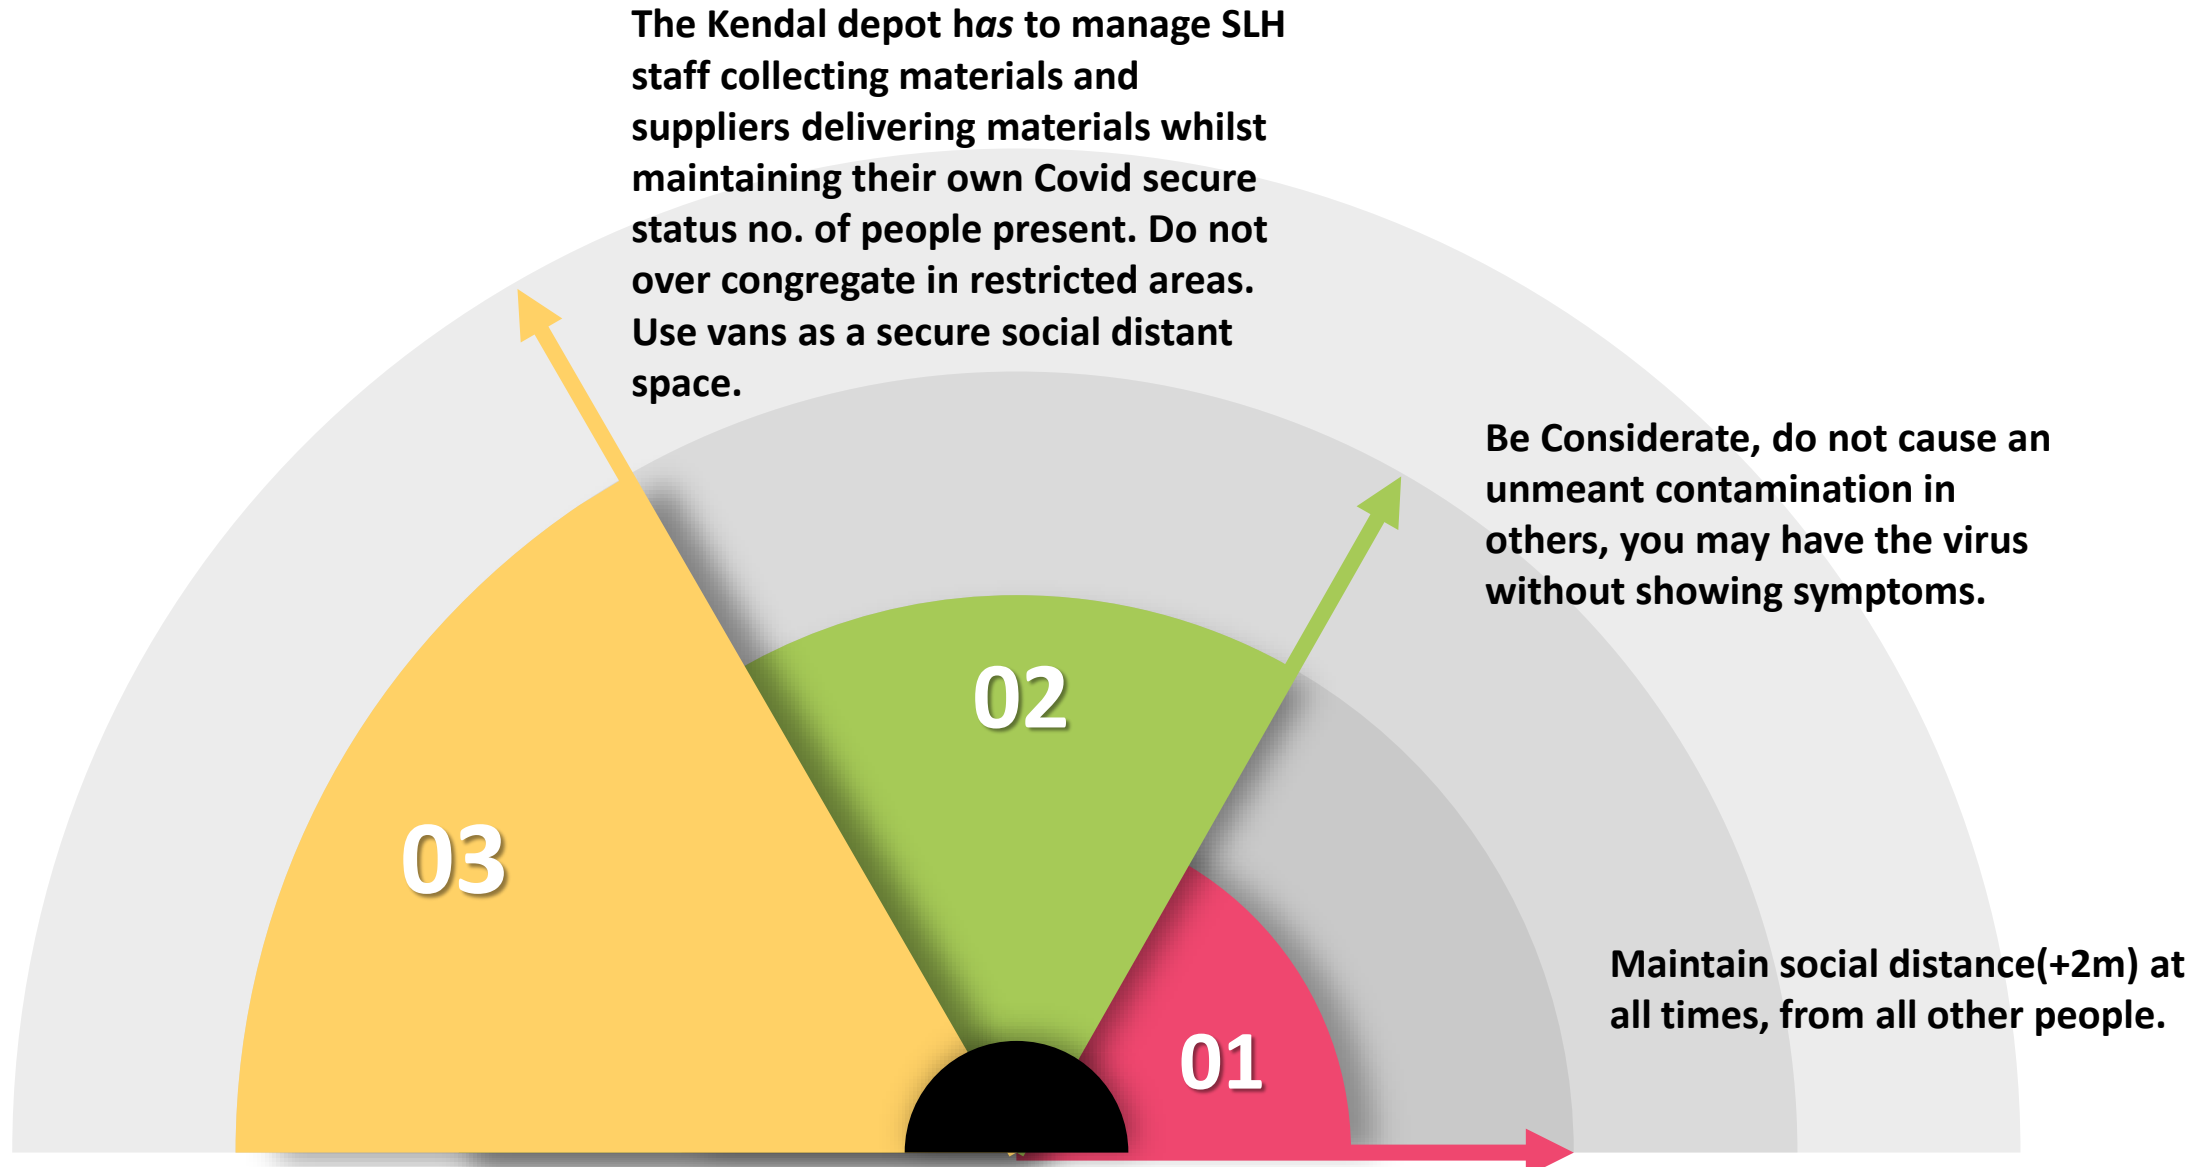

Maintain social distance(+2m) at all times, from all other people

Please do not cause an accidental contamination to others, as you may have the virus without showing symptoms.

The depot arrangements have been set out to reduce the spread of virus either to you and your family or to the Wolseley staff and their families.

Meeting Staff From Other Organisations During Work Activities

Contact With Other People, Surfaces and Items Handled By Others

Use PPE for actions like fuelling vehicles, entering other buildings and collecting materials. Also keep a safe 2m distance from others.

Hygiene Consider; detergent based anti-bacterial wipes, a flask of warm soapy water, a personal towel, several pairs of disposable gloves, a scarf, buff or snood or several disposable masks.

Do not share vehicles or use a vehicle that is not normally only used by you or your household until it is sanitised. Once in a vehicle that is known to be clean consider it a safe place and reserve PPE use for higher risk activity.

Wash your hands and forearms for at least 20 seconds before leaving home or any other clean safe place and wash them again when you arrive at a clean safe place and after any welfare activity such as preparing refreshments, using the toilet or after moving through a building.
