Your Neighbourhood Plan

We see common strengths and challenges across all our neighbourhoods, but each one has different priorities and unique challenges, which we identify for tackling.

Our Neighbourhood Plan for Kendal North sets out how SLH will work collaboratively with residents, and our partners to support a flourishing community and overcome the challenges in your area.

Through analysing the available data as well as getting feedback from residents, stakeholders and our own teams, we have put together the following strengths and challenges.

Strengths

- The proximity to Kendal Town Centre and the available amenities is viewed as a key benefit of living in the neighbourhood.
- Residents highlight the benefit of having friendly neighbours across what they feel is a generally quiet neighbourhood.
- There is a good variety of homes available to suit all household types including a large amount of older persons accommodation.
- There are a number of committed and active residents across the neighbourhood who work with neighbours to deliver events and support others around them.
- The Kirkbarrow Residents Association are an active group who make a positive contribution to their neighbourhood, working with other agencies to deliver this.

Challenges

- A number of residents highlight that dog fouling is an issue in a number of areas across the neighbourhood.
- Levels of ASB across neighbourhood vary however there are hotspots where there is the need for more work to be done to resolve issues such as noise nuisance and general unacceptable behaviour.
- Grounds maintenance could be improved across the neighbourhood along with the general aesthetic of the open spaces.
- There is a view that there is a need for more open spaces for young people to play throughout the neighbourhood, particularly in areas with family homes.
